The Magic Coin Doubler

Step 1

Place 2 paper plates face down on the table.

Complete ☐

Step 2

Cut 2 squares of paper.
Make sure they are bigger than the coins you are using for the trick.

Complete ☐

Step 3

Tape down three sides of each paper square near the edge of your paper plates, creating a pocket. Leave one side of each square unstuck.

Complete ☐

The Magic Coin Doubler

Step 4

Tuck your coins into the pockets (paper squares) you have just made on the back of your plates.

Complete ☐

Step 5

Turn the plates over, keeping them face down, and get ready for your trick.

Complete ☐

Step 6

Gently slide one plate over the other. As you do this, subtly release a coin from the pocket while keeping the plate face down. This ensures the pocket is not on show. Then repeat with the other plate to “double” the coins.

Complete ☐
